Please send this request form to info@joyce.cloud

Please hand in a project description (at least 600 words) where you describe the purpose of your use of JOYCE-CF and answer the following questions about your instrument(s):

- How much space do(es) the instruments(s) require?
- How heavy is it?
- How much power do you need in operation mode or what is the power supply?
- Does the instrument(s) has/have its/their own computer or datalogger?
- How large is the amount of data per day (per instrument)?
- Do you need to have online access to your instrument?
- Are there any safety requirements for operation (e.g. required liquids/gases, active radiation)?
- If you have other important information about your instrument(s), please specify.
